MCT Plus

MCT Plus is a line of very large Gantry type measuring machines designed to reach high-speed, high-accuracy inspection of huge components that require a modular and customizable structures with virtually unlimited measuring capacity

- ♦ Gantry CMM
- ♦ Large working volume
- ♦ Multi-sensor temperature compensation for measuring scales and part (Optional)
- ♦ Z Ram in Silicon Carbide (NT version)
- ♦ High accuracy
- ♦ Scales free to expand lengthwise. Resolution: 0,1 microns
- ♦ Dual Read/Drive capable
- ♦ Accuracy from ISO MPE_E: 7,0 + 8,0 L/1000 [μm]
- ♦ Starting from 80.30.25 to XX.60.40 - Other size on request
